RE: *Farmdale Sewer Rate Increase*  
*Case Number: 2006-00028*

*To Whom It May Concern:*

*I understand that rate adjustments are necessary but such a high increase in our sewer cost and a surcharge is not acceptable. If this increase at been a gradual increase this would have been agreeable.*

*I and other Farmdale resident cannot afford such a large increase. If an increase is necessary is there not other ways of going about asking and maybe communicating with there customers other than approaching this matter in this way?*

*I do not agree with this increase and I am against it. If the Farmdale Water District want this increase then they need to start approaching there customers in a different fashion.*

*Thank You,*  
*Debbye J. Kordich*
